

CURRICULUM VITAE

Having trained at ENSAPB-l'Ecole Nationale Supérieure d'Architecture de Paris Belleville and AHO - Arkitektur Høgskollen i Oslo, Camille graduated from ENSAPB in 2008 with a master in architecture. In 2014 Camille became a registered Architect with the ARB-Architect's Registration Board in the UK.

Camille worked with award winning practices in London, UK, and in Oslo, Norway, where she gained extensive experience in both public and private sectors with schemes delivered through a wide ranged of procurement routes. Camille also worked for Prince Harry's Charity in Lesotho, Southern Africa, where together with Pedro Clarke she set up the charity's Capital Project Design and Sustainability Department.

Following up on private commissions and various other opportunities, Camille moved to Lisbon, Portugal in 2015 to become a director of A+Architecture.

Camille has extensive experience in various sectors including residential, commercial, hotels, student housing, and infrastructure led projects. She is used to deliver schemes from initial conception to final completion that meet individual needs on time and on cost.

Camille is highly experienced in concept design, detail design and construction. Her key skills lie in her ability to conceive space and hand sketch and can quickly assist clients in interpreting their ideas.

SELECTED PROJECTS

Rouse House, Quinta da Peru

Design and construction for a 700sqm house for a private client. Project on site, completion due September 2016.
